OBITUARY

Laurence Arthur ('Laurie') Landon

It is with deep regret that we record the death of Laurie Landon, the chief founder of the Stoke and Newcastle District Chess League and of the North Staffs Chess League. A severe loss as he was the President of both Leagues at the time of his death on 1st February 1972, at the age of 83, and as president he was very much our charge d'affaires. It was Laurie Landon who presented the handsome Silver King, which is the championship trophy of the North Staffs League.

A very active secretary of the Victory Chess Club and immensely proud of the fact that the club is a Corporate Vice-president of the British Chess Federation. He has been instrumental in bringing some of the finest chess players in the world to play exhibition matches in Stoke - grand masters like Konig of Yugoslavia and Koltanowski of Belgium, as well as William Winter, one-time British champion. He has been secretary of the Victory Chess Club and its predecessors Hanley Chess Club and Hanley Y.M.C.A. Chess Club for well over 50 years and boasted of having a record of every match a member has played for his club over a 20-30 year period, plus the results of some 20-30 Simultaneous Displays arranged by him for his club.

Laurie was born on 14th January 1889 and was educated at Cannon St. Boys' School, Hanley and at Hanley High School (then the Municipal Secondary School, which was situated where the Hanley Bus Station now is). He learnt chess from his brother at the age of 7 and belonged to a family connected with teaching. His father was a fine draughts player, and one school-master uncle used to engage to mate his opponent with any piece the latter selected. It was after an accident, while cross country running at Hartley University, Southampton (1908-10), that he took to chess seriously.

Chess was by no means the chief thing in his life - he won the D.C.M. in the first World War and received a 50 years Service Medal in the National Savings Movement. He has been a Local Preacher for over 60 years and a school-master for almost as many.

Notes

The strategy of this game revolves around White's isolated QP. While Black blockades it with his knights, and attempts to obtain some counterplay on the queen-side, White makes use of various squares on the semi-open king's file in order to attack and weaken Black's king-side, concluding with a pretty knight sacrifice.

(a) After 4.PxP,NxP; 5.N-KB3,P-K4; 6.P-Q3,B-QB4, Black would have good compensation for his gambitted pawn.

(b) 18.BxN,QxB; 19.PxP would merely leave White with weak pawns and Black with the two bishops. White correctly decides to continue his king-side attack instead. 18.N-N4 threatens 19.BxN,QxB; 20.NxNch,BxN; 21.QxPmate.

(c) 20...PxP is answered by 21.NxBch,QxN; 22.B-R6 winning the exchange for a pawn.

(d) After 22...PxP; 23.N-B5, White's position is much better than that which he would have obtained after 18.BxN,QxB; 19.PxP

(e) 27...BxQP; 28.QxRP,RxBP; 29.R-N7ch! and 27...QxQP; 28.RxBch,QxR; 29.RxQch,KxR; 30.QxRPch and 27...B-KB3; 28.R(K7)-QN7,QxQp; 29.Q-K6ch are all hopeless for Black.

Played on Board 1 in the postal match Staffordshire v Cheshire

Notes

- (a) This is recommended by Keres and Pachman, but the game continuation casts doubt on this. Wade played 11.Q-B4 in a 1970 British Championship game, but even after 11...N-B3; 12.N-B3,Q-K2; 13.PxP,N-QR4! black had enough play to draw and white of course went on to win the Championship.
- (b) This line is recommended in Barden's 'Guide to Chess Openings', but his continuation 13...Q-R6; 14.N-K2,N-Q2 does not seem quite so good as the line played, which is mentioned in 'Archives October 1968' with the note that 'no practical experience has been gained in this line!.
- (c) 19...0-0; 20.QxP,R-B5 looks good at first, but after 21.N-B4,KR-B1; 22.NxKP white gets too many pawns for the piece.

- (d) ⁵⁴ Black threatened R-B5 & RxRP as well as doubling on the B file with a tremendous position. The text is a desperate attempt to complicate matters, but Black wins a pawn.
- (e) White suddenly realises that 23.Q-R3 is answered by 23...NxPch
- (f) Threatening NxPch again.
- (g) If 26.R(5)-N2, then ...NxPch is again on.
- (h) Neither R can interpose, because of NxPch. Black's R Manoeuvre has also enabled the Q to move by blocking White's attack on it.
- (i) Not 31...NxP?; 32.R-K2
- (j) If 33.R-N1, Q-R7 wins another P
- (k) White's pawns are held and he must play 39.K-N1 or else he loses the QBP or if 39.K-K3, N-N4; 40.P-KR4, PxP!; 41.PxN, PxPdis ch; 42.K-Q3, PxPch; 43.KxP, PxP the N stands no chance against the 4 pawns. After 39.K-N1 one possibility is 39...N-Q3; 40.R-N4 (40.PxP, R-K5) PxP; 41.NxPch, K-B3; 42.P-B5, PxP; 43.NxP, R-K8ch; 44.K-B2, R-Q8.

Simultaneous Displays

Frank Rowley and Frank Saunders both gave simul. against the
Mount Methodist Primary School, Leek, on the same evening,
taking on about 15 opponents each. This school is very keen on
chess, and its team has so far won through 2 rounds of the
Everyweek Trophy (a National Knock-Out for Primary School teams)

Later, R.A.Beach gave a simul. against the same school, and won
all 27 games. R.A.Beach also gave a simul. against Hanley High
School a fortnight earlier, winning all 13 games.
